

Maine Trip
July 2009

In July of 2009, a few scouts took the 13 hour drive up to Maine, with my Dad and I. We have a small cabin up in Petit Manan Point, Maine. We were up there for 1 week and did lots of things. We went on a lobster fisherman's boat, we went to the Petit Manan lighthouse, we took several boat trips, and we went to Pigeon Hill. I have been going up to Maine my whole life, and I was very glad to be able to bring several people to our cabin to experience all of the things I have been doing my whole life. We plan to take another trip to Maine sometime in the future. If you would like to learn more about Petit Manan Wildlife Refuge (where our cabin is located) you can visit this website: <http://www.fws.gov/northeast/petitmanan/index.html>.
