

Mohonk Trip

by Kyle A.

The Mohonk trip in New York state was really fun. I would definitely recommend this trip to everyone! It is a biking, hiking, caving and rock scrambling trip. We had two days of that fun and exciting activities. We even got lost once or twice! We also learned a few lessons –

- * bring Tons of water!
- * sleeping is REALLY needed for this trip
- * Mr. Tupitza is good at making fires.

We had a great time and a lot of people missed out.
